STATE CLEARINGHOUSE

NEWSLETTER

August 16-31, 2005

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **August 16-31, 2005.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Associate Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

<u>Documents Received on Tuesday, August 16, 2005</u>			
2005084010	Bald Hill Road Slide Repair Projects at Three Locations Bureau of Indian Affairs, Sacramento Area --Humboldt Road repair and improvements in 3 slide areas to reduce effects of erosion by incorporating accepted design principles.	EA	08/30/2005
2005084011	Bull Creek Channel Ecosystem Restoration U.S. Army Corps of Engineers Los Angeles, City of--Los Angeles The purpose of the proposed project is to restore and enhance the habitat of the southern-most 3,000 feet of the Channel. The flora and fauna habitat along this portion of the Channel has been substantially degraded due to increased urbanization and changing land use patterns. The opportunity exists to restore habitat areas by modifying the Channel, increasing multi-layered indigenous vegetation cover, and increasing the amount and quality of riparian habitat.	EA	09/14/2005
2004011126	Biorn Land Use Element / Land Use Ordinance Amendment and Conditional Use Permit G020020M, D020293D San Luis Obispo County Santa Maria--San Luis Obispo Request (1) to change up to fifty acres in the Residential Suburban (RS) and Commercial Service (CS) land use categories to the Industrial (IND) land use category; and (2) for a Conditional Use Permit to develop a 14.5-acre portion of the subject area with a concrete asphalt plant (which is allowed in the Industrial land use category). The proposed project is located to the north and south of Cuyama Lane, generally west of Hutton Road and Highway 101, north of the Santa Maria River and City of Santa Maria.	EIR	09/29/2005
2004092109	Application to Appropriate Water No. 31074 State Water Resources Control Board, Division of Water Rights Rocklin--Placer The Applicant proposes to divert a total of 49 acre-feet per annum of water, from a Point of Diversion on an unnamed stream tributary to Miners Ravine thence Dry Creek thence Natomas Main Drainage Canal thence Sacramento River in Placer County. From December 31 to March 31 the water would be diverted to storage into an existing offstream reservoir at the diversion rate to exceed 0.2 cubic-feet per second. The purposes of use are stockwatering (for up to 100 head of cattle) and irrigation of 81 acres of pasture and 12 acres of nursery. The place of use is thus 93 acres out of the total Broken Arrow Ranch acreage of 240 acres.	FIN	
2005062144	Greenbriar Development Project Sacramento, City of --Sacramento The applicant is seeking approval of a residential mixed-use development on the project site, which is located adjacent to and west of the Sacramento City limits and the City's SOI; the project applicant is seeking to annex the project site to the City. Annexation will require approval of pre-zoning entitlements from the City, and approval of an amendment to the City's SOI and annexation approval from the Sacramento County Local Formation Commission (LAFCo). 2005081097	<p>Hanford Square Planned Unit Development Hanford, City of --Kings</p> <p>Construction of a proposed 247+/- acre planned unit development project in the City of Hanford. The project includes the annexation of approximately 235+/- acres to the City of Hanford; General Plan Amendment (Land Use Map and Text) to allow for Mixed Commercial; Pre-zoning; Planned Unit Development (213+/- acres) approval; Tentative Parcel and/or Subdivision Map for commercial and office development. Public infrastructure improvements including streets, water, sewer, drainage, and utilities are to be constructed. Within the PUD, approximately 1,123 dwelling units are proposed in a range of housing types including single-family and multi-family configurations (also in Mixed Commercial). Single Family lot sizes are planned to vary from 2,675 sq. ft. to 4,000 sq. ft.. The single-family residential design includes small lot access lane (alley) loaded housing which is a new housing concept in the City of Hanford. Parkland will be provided as part of the project. The balance of the area annexed (not in the PUD) could provide another 106 Single Family Units.</p>	NOP	09/14/2005
2005082063	<p>New Elementary School #2 and Residential Subdivision Vacaville Unified School District Vacaville--Solano</p> <p>The project site contains two land parcels totaling about 20.58 acres. Parcel 1 contains about 10.57 acres and parcel contains about 10.01 acres. A new elementary school would be constructed on 11.16 acres. The school would contain 37,500 gross square feet. A 0.64 community detention pond would be located on the school site as mitigation for potential flooding. The project would also include obtaining entitlements from the City of Vacaville for a eight acre site containing 16 lots for single-family development.</p>	NOP	09/14/2005
2005081093	<p>Persall; File Number PLN040470 Monterey County Planning and Building Inspection Salinas--Monterey</p> <p>Combined Development Permit consisting of the following: (1) Use Permit to allow alteration of a historic resource (Corey House); (2) Use Permit to establish a hotel resort in an existing structure; (3) Use Permit for an onsite caretaker in an existing structure; and (4) Approval of a General Development Plan and Design Approval.</p>	Neg	09/14/2005
2005081094	<p>Golden Valley Elementary School Project Sulpher Springs Unified School District Santa Clarita--Los Angeles</p> <p>The Sulphur Springs School District proposes to construct a new elementary school on a 7.5 acre site to accommodate students from within the Golden Valley Ranch Project and relieve overcrowding of nearby schools.</p>	Neg	09/14/2005
2005081095	<p>CUP 04-023 / ROAKT200500045 Los Angeles County Department of Regional Planning --Los Angeles</p> <p>Application for a CUP to operate a health retreat facility for voluntary substance abuse withdrawal and education. There are currently 11 existing buildings (total of 16,531 s.f.) consisting of housing and office building, a workshop, a laundry building, a storage building, an office building, a cabin building, a kitchen and dining hall, three dormitories, and one classroom building. Other existing improvements include three water wells, two water tanks (42,000 gal. and 210,000 gal.), two dirt volleyball courts, a basketball court, a swimming pool, an unmarked/undeveloped</p>	Neg	09/14/2005

	field for softball, orchards, and a corral. Proposed improvements include the construction of an entry sign, three 4' wide concrete walkways, modification to building facades, and remodeling of building interiors including building #11 to include a sauna, exercise room, and men's and women's bathroom/change room/shower room. Project site will also utilize two existing septic tanks and a leach field for waste disposal.		
2005081096	Installation of AWOS System at Marina Airport Marina, City of Marina--Monterey Installation of an automated weather observing system at Marina Airport.	Neg	09/14/2005
2005082064	West A Street Realignment-Hesperian Blvd to Golf Course Rd Hayward, City of Hayward--Alameda The proposed project includes realignment of 1,900 ft. of West A Street from the intersection with Hesperian Boulevard to Golf Course Road through the Hayward Executive Airport property. Skywest Drive will also be realigned to intersect with the proposed West A Street alignment. West A will have four lanes until it reaches the intersection with Skywest, where the road will taper to three lanes (two eastbound and one westbound). West A will have two lanes after the intersection with Golf Course. Access driveways will be constructed for the property planned for redevelopment southwest of the intersection of Hesperian Boulevard and Golf Course Road. A gated access driveway will be provided for the Hayward Executive Airport and a cul-de-sac will be constructed at Skywest Drive south of the proposed West A Street alignment. A traffic signal will be installed at the new intersection of West A Street and Skywest Drive and signal modifications will be made at the intersection of Hesperian Boulevard and West A Street. Existing pavement on Golf Course Road and Skywest Drive and a small section of airport parking will be removed to allow for the new alignment. Street lighting and landscape medians will be provided along the proposed roadway.	Neg	09/14/2005
2005082065	Former Gibson Environmental Facility, Port of Redwood City Redwood City, Port of Redwood City--San Mateo The Port intends to complete closure and remediation activities at the former Gibson Environmental, Inc. facility Site. The 8.9-acre Site was a former liquid bulk terminal that was active between 1963 and 1995 and consists of ten aboveground bulk storage tanks, associated pipelines and ancillary equipment and structures and truck loading facilities. Petroleum- and metal-bearing wastes from facility operations have contaminated the shallow soil and shallow groundwater.	Neg	09/14/2005
2001099037	Reliez Valley Road Subdivision Contra Costa County Community Development Lafayette--Contra Costa As part of the development of a 9.5 acre site into 7 parcels (six lots south of the creek one lot north of the creek), the operator proposes to install an arch culvert bridge and an outfall structure impacting the west branch of Grayson Creek at 1979 Reliez Valley Road in Lafayette, Contra Costa County. The bridge will be supported on concrete pier footings located along on the top of the bank. An approximate 16.5-foot clearance will be provided from the bed of the creek to the inside top of the arch. Downstream from this crossing, approximately 150 feet, an existing steel bridge will be removed. From this point downstream approximately 120 feet of the south bank (primarily along the top of the bank) will be graded to	NOD

	construct Arie Lane and lot 6. This grading will result in the removal of approximately 2,400 square feet of riparian vegetation, including but not limited to oak and willow trees, and blackberry bushes. Within this area, approximately 40 feet east of the existing bridge, an 18-inch outfall structure will be installed on the south bank utilizing the county CD50 design which uses loose rock riprap as an energy dissipater. The project is located on the west branch of Grayson Creek at 1979 Reliez Valley Road in Lafayette, Contra Costa County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0257-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Jim Wood, Old Oak Land Company, LLC.		
2001112052	Cypress Avenue Bridge Project Redding, City of Redding--Shasta The City will replace and widen (proposed action) the Cypress Avenue Bridge over the Sacramento River. The new bridge will have four new piers and be constructed in three stages. The number of traffic lanes will increase from four to six lanes in addition to bicycle lanes and sidewalks in each direction. Aesthetic treatments will be added, such as open railings, decorative lighting, river overlooks, and artwork.	NOD	
2003072079	Riverside RV Park Santa Clara County San Jose--Santa Clara The proposed project consists of the construction of a 130-space recreational vehicle park and supporting facilities on a 9.92-acre, vacant parcel of land in an agricultural setting in central Santa Clara County. The proposed project is located along Monterey Road in the Coyote Valley area. About one-third of the project site fronting Monterey Road is within the incorporated limits of the City of San Jose. The rear 2/3 of the property site is on unincorporated land within the jurisdiction of Santa Clara County.	NOD	
2004092109	Application to Appropriate Water No. 31074 State Water Resources Control Board, Division of Water Rights Rocklin--Placer The Applicant proposes to divert a total of 49 acre-feet per annum, during the period of December 31 to March 31, from an unnamed stream tributary to Miner's Ravine thence Dry Creek Natomas Main Drainage Canal thence Sacramento River, in Placer County. The water would be diverted to storage in an existing offstream reservoir at a diversion rate not to exceed 0.2 cubic feet per second. Water stored in the reservoir would be used for stockwatering up to 100 head of cattle and irrigation of up to 81 acres of pasture and 12 acres of nursery plants. The total place of use for the water would consist of 93 acres within a 240 acre parcel known as Broken Arrow Ranch.	NOD	
2004121121	Proposed Site Plan SP-05-006 and Conditional Use Permit Modification CUP-03-035(M) Victorville, City of Victorville--San Bernardino The proposed project includes the development of approximately 3 acres of undeveloped land into a commercial/retail development. The Department, as a responsible agency, is issuing an Incidental Take Permit for the Mohave ground squirrel.	NOD

2005012021	William & Linda McIntire Siskiyou County Planning Department Etna--Siskiyou The applicants request a zone change from AG-2 (Non-Prime Agricultural, with 10-acre minimum parcel sizes) to R-R-B-5 (Rural Residential with 5 acre minimum parcel sizes). Proposed Parcel 1 contains a +/- 0.56 acre area of AG-1-B-80, which is legal non-conforming and would remain unchanged.	NOD	
2005012057	Physical Sciences Expansion and Service Unit Park University of California, Davis Davis--Yolo While the Initial Study/Mitigated Negative Declaration prepared for this project evaluates the potential environmental impacts of the entire project, the Lead Agency's decision only approves Phase 1 of the Service Unit Park for construction. Phase 1 of the Service Unit Park project will provide 40,352 gross square feet (gsf) of the total 326,000 gsf. When future phases of the project are presented to the University of California, the project's consistency with the Initial Study/Mitigated Negative Declaration will be determined. If the project is approved, the University will file a separate NOD at that time.	NOD	
2005022084	Napa Terrace (Capitola) Subdivision Napa, City of Napa--Napa The project activity consists of the placement of fill into an intermittent drainage feature and seasonal wetland facilitating subdivision construction. The project is located on the east side of Silverado Trail, south of Fairview Drive and northwest from the southern stub of Capitola Drive. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0037-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Scott Cheeseman / O'Brien Group.	NOD	
2005052125	2005-10 Zoning Amendment to Process a Lot Line Adjustment (LLA) for Mark and Patricia Jackson Calaveras County Planning Department --Calaveras The applicants are requesting approval of a Zoning Amendment for 2.00 +/- acre of a 72.06 +/- (APN 48-003-012) to process a LLA for creation of a fire protection buffer. The applications are requesting to rezone from A1 (General Agriculture) to RA-5 (Residential Agriculture - 5 acre minimum).	NOD	
2005062014	Ron & Valerie Martin Tentative Subdivision Map (TSM-05-01) Siskiyou County Planning Department Mount Shasta--Siskiyou Application for approval of a Tentative Subdivision Map to subdivide a 38.2-acre site, which consists of 2 existing parcels, into 15 single-family residential lots ranging in size from 2.1 to 2.7 acres. The proposal includes construction of a private internal roadway to provide access to 14 of the 15 lots. The private road would take access from Villa and Big Valley Roads. The 15th lot would take access directly from Big Canyon Road.	NOD

2005062015	St. Juvenaly of Alaska / Fr. David C. Cownie (UP-04-16) Siskiyou County Planning Department Etna--Siskiyou The applicant requests Use Permit approval to construct an 800 sf church and a 80 ft. dedicated cemetery, on a 6.7 acre parcel.	NOD	
2005062016	Ronald Scott Wilson (TPM-04-017) Siskiyou County Planning Department Etna--Siskiyou The applicant requests Tentative Parcel Map approval to create four parcels (7.0 acres, 8.0 acres, 6.0 acres, and 45 acres) and a 78.2 acre remainder.	NOD	
2005088198	Bodie Cemetery Trail ADA Retrofit Parks and Recreation, Department of --Mono Provide design elements to the cemetery trail to meet the proposed guidelines for recreational trail access at Bodie State Historic Park. Upgrade the surface of the trail to firm and stable, even out grades to fall within 5% for any distance, 8% for 200 feet, 10% for 50 feet, an 12% for 10 feet. Improve four segments of existing trail which includes: the access trail from the visitor parking lot to town; cemetery trail to the park access road including a safe and acceptable crossing.	NOE	
2005088199	Invasive Plant Control - Colusa Sacramento River State Recreation Area Parks and Recreation, Department of --Colusa At Colusa Sacramento River State Recreation Area, invasive non-native plants will be killed with herbicide using foilar spray and basal bark techniques. Trees larger than 6 inches diameter at breast height will be left standing as wildlife snag habitat where they will not be a reestablishment and to maintain native plant cover which will increase native biodiversity toward riparian forest.	NOE	
2005088214	Jablons-Hicks Property, Gully Repairs Fish & Game #3 --Marin Old tires, construction debris, garbage, and other imported materials will be removed from an unnamed seasonal or ephemeral drainage tributary to Stemple Creek and the Estero de San Antonio. Removed materials will be sorted, stockpiled, and disposed of at an approved landfill or other appropriate site as required by the Integrated Waste Management Board. After the debris is removed from the drainage channel and adjacent lands, the channel will be recontoured, armored along the bottom to control erosion, and revegetated with native riparian plants. SAA #1600-2005-0071-3.	NOE	
2005088215	Lyrie Lane Subdivision Fish & Game #3 Santa Rosa--Sonoma The project operator proposes to construct a rock-lined stormdrain outfall to Brush Creek. The project will affect approximately 20 linear feet and disturb approximately 320 square-feet of stream bank. SAA #1600-2003-5214-3.	NOE	
2005088216	Fairway Drive / Wesbrook Avenue Culvert Replacement Fish & Game #3 Los Altos--Santa Clara The project includes replacement of a 40-foot long culvert under Fairway Drive. SAA # 1600-2003-0407-3.	NOE

<u>Documents Received on Wednesday, August 17, 2005</u>			
2005022122	Oak Road Merger / Resubdivision Project Larkspur, City of Larkspur--Marin Merger of nine existing single family parcels into three lots for future construction of three single-family homes. Project includes reconstruction of Oak Road Extension including the construction of a system of hillside retaining walls.	EIR	10/03/2005
2002111081	7th Standard Road Widening (Wings Way), 06-Ker-0-CR, RPSTPL 5950(207), (06-4C1614) Kern County Bakersfield--Kern The County of Kern, the State Department of Transportation (Caltrans) propose to widen Seventh Standard Road from a two-lane roadway to a four-lane roadway between Quinn Road and Wings Way in northern Bakersfield, a length of approximately 3.2 kilometers (2 miles). Improved intersections with traffic signals and turn lanes would be constructed at Seventh Standard Road and Industry Parkway Drive, Pegasus Drive and Wings Way. The intersection at Seventh Standard Road and State Route 65 would be expanded to accommodate raised concrete medians, multiple turn lanes, ADA wheelchair ramps, acceleration and deceleration lanes, curbs and gutters, and upgraded traffic signals. Also, a shallow 1 meter (3.3-foot) deep drainage basin is proposed for additional storm water runoff, to be constructed on airport property within an area east of the Meadows Field Airport runway underpass and south of Seventh Standard Road.	MND	09/15/2005
2005082066	2003-154 Tentative Subdivision Tract Map for Helen P. Stamper, et. al. Calaveras County Planning Department --Calaveras The applicants are requesting approval to divide 137.07 +/- acres into 21 lots.	MND	09/15/2005
2005082070	Wilton Road Culvert Replacement Project Elk Grove, City of Elk Grove--Sacramento The proposed project would replace an existing 60-inch CMP culvert located on Wilton Road, approximately 1,800 feet southeast of the Grant Line Road / Wilton Road intersection, with two 5' x 7' concrete box culverts. Wilton Road would require temporary road closure during culvert removal and installation, however emergency vehicle access would be available at all times. Three trees, one stump, and one fallen log located in front of the existing culvert would require removal in order to establish a clear water flow path through the new culverts, and eliminate unsafe conditions due to partially exposed root structures. A minimum of four-foot deep, water cut-off walls would be installed at the base of the culverts on the inlet	MND	09/15/2005

	and outlet openings to prevent piping that could undermine the integrity of the roadway, and rip rap would be installed on either side of the culverts to protect the road embankment. Additionally, beaver protection screens would be installed on both the inlet and outlet openings of the culverts to prevent beavers from constructing dams inside of the proposed culverts. All work would take place on and adjacent to Wilton Road within the City of Elk Grove (north of the centerline) and unincorporated Sacramento County (south of the centerline).		
2003042155	Mammoth Lakes General Plan Update Mammoth Lakes, City of Mammoth Lakes--Mono The proposed project is a comprehensive update of the Town of Mammoth Lakes' General Plan. The General Plan is the primary policy document for the Town and is the basis for all decisions regarding the physical development within the Town.	NOP	09/15/2005
2005072054	Laurel Road Widening Oakley, City of Oakley--Contra Costa The proposed project consists of the widening of Laurel Road between Empire Avenue and O'Hara Avenue. The project would also include installation of traffic signal at the intersection of Laurel Road and Empire Avenue, and at the intersection of Laurel Road and O'Hara Avenue, as well as the improvement of the traffic signal at Laurel Road and Mercedes Lane. In addition, the project includes relocation of utilities and a landscaped center median, and acquisition of right-of-way.	NOP	09/15/2005
2005081099	EIR for General Plan Amendment and Zone Change for Planning Areas 18, 34, 39, and Lot 109 of Planning Area 33 Irvine, City of Irvine--Orange The project proposes the development of up to 6,050 residential units on Planning Areas 18, 39, and Lot 109 of Planning Area 33. Additional proposed uses within these Planning Areas include a school site, parks and trails, and infrastructure to support the project. Development intensity within Planning Area 34 would be reduced by 2,340,500 square feet.	NOP	09/15/2005

2005089063	TPM 20723, Log No. 03-08-008 - Escalona Minor Subdivision San Diego County Department of Planning and Land Use Escondido--San Diego This project proposes to divide APN 185-030-30, a 12.6-acre parcel, into two residential lots of 6.2 and 6.4 acres respectively. Parcel 2, the eastern half, contains an existing single-family residence and two sheds that will remain.	NOD	
2005088224	Levee Bank Protection Project - Reclamation District No. 551 Fish & Game #2 --Sacramento The project consists of upper bank protection at eight sites on the waterside of the levees along RD 551 using the placement of rip-rap along the Sacramento River.	NOE	
2005088225	Agreement 2005-0017-R4 Central California Irrigation District Sand Removal Project Fish & Game #4 --Fresno The project will consist of removal of sand from the San Joaquin River channel adjacent to the Poso Canal. Sand will be used for routine maintenance of the District's canals and levees, and to prevent flooding and loss of property. Work will be limited to the unvegetated portion of the river channel, and will be completed when the river is dry.	NOE	
2005088226	Agreement 2005-0027-R4 La Grange Powerhouse Draft Tube Repair Fish & Game #4 --Stanislaus The project will consist of installation of a replacement draft tube on the La Grange Powerhouse. The powerhouse tailrace will be dewatered, and the site will be accessed using a temporary road along an existing dry bypass channel. The bypass channel will be reconfigured to reduce plunge pools and holding habitat which could strand fish when the tailrace is shut down. Channel banks will be stabilized using boulder and cobble materials from the bed of the bypass channel. Disturbed areas will be recontoured and revegetated.	NOE	
2005088227	MS 03-08 - Beam/Gates Condo Conversion Carlsbad, City of Carlsbad--San Diego Convert an existing duplex into airspace condominiums.	NOE	
2005088228	PG&E's Gas Pipeline Armoring Project Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe Barstow--San Bernardino PG&E proposes to perform maintenance on a high-pressure natural gas pipeline that crosses a wash, which is tributary to the Mojave River, located approximately 40-feet north of Soap Mine Road near the Nebo Area Marine Corps Supply Center. The pipeline was partially exposed during recent winter storm events. The work will involve fully exposing the pipeline sufficiently to examine the condition of the pipe, clean off any corrosion and apply a protective coating. To protect the pipeline from continued exposure, PG&E will install a 40-foot by 40-foot articulating grout mattress. The mattress is a textured concrete convering installed over the pipeline as a protective covering, which will be installed over the contours of the drainage like a blanket and then pumped full of concrete. The natural flow and floodway of the drainage is expected to remain unchanged.	NOE

2005082073	Amendment to Shopping Center Renovation: Home Depot Santa Cruz County --Santa Cruz The project is a proposed Amendment to Commercial Development Permit 00-0127. The proposal consists of removing an 84,143 square foot retail building and a 10,500 square foot garden center (formerly occupied by K-Mart), deleting a planned 8,000 square foot building, and construction 82,735 square foot retail building to include an 11,741 square foot display mezzanine, 15,110 square foot garden center, and 800 square feet of outside display of stock-in-trade, for a net increase in commercial area of 7,743 square feet over that proposed in CDP 00-0127. The project is located on the east side of 41st Avenue, between Soquel Drive & State Highway 1 in Soquel, California.	Neg	09/16/2005
2005082074	Rancho Belmont Three Lot Subdivision - 2007 Bishop Road Belmont, City of Belmont--San Mateo Subdivision of 3.44 acre lot into 3 lots; lot + - .72-acre, lot 2-.74-acre, and lot 3 - 1.98-acre. Removal of accessory structures (future), construction of new single family dwellings (future). Constructing one new driveway and reconfiguring two existing driveways.	Neg	09/16/2005
2005082075	Den Heyer Parcel Map Subdivision/Coastal Development Permit Humboldt County Community Development Services Eureka--Humboldt A Coastal Development Permit and Parcel Map Subdivision of 9.4 acres into Parcels 1 and 2 of approximately 8.93 and 0.54 acres, respectively. The project will site the existing residence onto Parcel 1, and proposes construction of drainage facilities as required by the County Land Use Division. The parcels are served by community water and sewer, and accessed via Blue Spruce Drive. The project requires exception to lot frontage requirements and exception to County Fire Safe Regulations for maximum length of dead-end roads. The project includes development of Parcel 2 with a two-story, 3-bedroom single family residence, approximately 3,500 square feet, with attached garage, approximately 500 square feet.	Neg	09/16/2005
2005082076	CUP 2005-0004, Cell Tower for Cingular Wireless Yuba County Marysville--Yuba CUP 2005-0004 (Cingular Wireless). A request for a conditional use permit to locate a wireless communication facility (120 foot tall monopole with equipment cabinets). The parcel is approximately 98 acres in size located in the AE-40 "Exclusive Agricultural; 40-acre minimum" zone (District 10). The site is currently being used for both residential and agricultural activities.	Neg	09/16/2005
2004101084	USC Health Sciences Campus Project Los Angeles, City of Los Angeles, City of--Los Angeles The proposed project is to occur on seven development sites within the USC Health Science Campus (HSC). The seven development sites are identified as Development Sites A through G. The project consists of the development of between 585,000 and 765,000 SF of academic and medical research facilities as well as medical clinic facilities. The development sites currently contain surface parking lots and/or are underdeveloped. Parking accommodations to support the proposed academic and medical-related uses are also included as part of the	RIR	10/03/2005

2003062011	Dorris Library Project Dorris, City of Dorris--Siskiyou Construct and maintain a new 3000 square foot public library with eleven on-site parking spaces and provisions for future expansion to 4250 sq. ft. with five additional parking spaces. The project will have access from W. Third St. The project includes the rehabilitation of Third St. approx. 200 ft. and will include paving, curbs, and sidewalk.	EA	09/01/2005
1998051139	East Tulare No. 29, Reorganization 2005-14 Tulare, City of Tulare--Tulare Annexation and detachment of Tulare Irrigation District of approximately 98 acres for a new high school and elementary school. Three additional properties are included to avoid creation of a county island. Project would include a general plan amendment to relocate the Urban Reserve Line and Urban Development Boundary, change land use designation from Agriculture to Public and Suburban Residential; and pre-zone property to PL (Public Lands) and R-1-6 (single-family residential - 6,000 sq. ft. minimum parcel area).	EIR	10/03/2005
2005081110	Artesian Trails Minor Residential Subdivision; TPM 20662RPL^1 Log No. 03-08-010 San Diego County Department of Planning and Land Use --San Diego The project proposes a minor subdivision of 8.53 net acres into four parcels, ranging in size from 2.01 to 2.41 net acres. An area of proposed Open Space Easement will occupy 1.33 acres, 0.59 acres, 0.94 acres, and 1.47 acres of Parcels 1, 2, 3, and 4, respectively. All parcels will be on individual onsite sewage disposal systems (septic) and will receive water service from the Olivenhain Municipal Water District. Grading proposed for project implementation will occur on 3.35 acres involving approximately 2,600 cubic yards of cut and 26,000 cubic yards of fill with a maximum cut slope ratio of 1.5:1 and fill slope ratio of 2:1 and maximum height of 30 feet. Access to the project site is from Artesian Trail Road, a 30-foot wide private road easement. The project is located at the southern end of Artesian Trail in the San Dieguito Community Planning Area within an unincorporated portion of San Diego County. The project site is located within the Lake Hodges Segment of the Multiple Conservation Program (MSCP) and is within the Minor Amendment Area of the MSCP. The Land Use Regulation is RR.5 (Rural Residential). The entire project will be served by the following agencies/districts: Solana Beach School District, San Dieguito Union High School District, Olivenhain Municipal Water District, and the Rancho Santa Fe Fire Protection District.	MND	09/19/2005
2005081111	Applied Technology Training Center for San Bernardino Community College District San Bernardino Community College District Highland, Redlands--San Bernardino The proposed project consists of the construction and operation of the ATTC building in the City of San Bernardino. The ATTC would be considered an annex or Phase II to the existing Professional Development Center (PDC) facility located	MND	09/19/2005

	to the east. The ATTC would consist of a 10,000 square-foot-building located on approximately one acre of the approximately 4.6-acre parcel of land owned by the SBCCD at the northeast corner of Frank Bland Street and Enterprise Street. The one-story building would consist of computer lab training space, lecture hall/executive training space, and offices, and support space such as restrooms, break rooms, a conference room, and storage. The computer lab would have space for 40 students and an instructor. The lecture hall/training space could be configured either as a 208-seat auditorium, or three separate lecture halls with space for 112 students. The building would have office space for approximately 8 to 10 employees. The existing California live oak trees on the southern and western boundaries of the project site would be incorporated into the landscaping plan for the new building.		
2005082081	Shayne Final Map Subdivision Humboldt County Community Development Services --Humboldt Approval of a tentative map for a Final Map Subdivision of 1.08 acres into six lots ranging in size from approximately 5,300 to 11,730 square feet. The purpose of the subdivision is to site each of the six existing single-family residences onto its own separate lot. The project requires removal of relocation of structures, including three existing garages, to maintain conformance with development standards. The project requires exemption from Solar Access standards and exception from the California Department of Forestry and Fire Protection to the 30 foot setback for structure defensible space. The lots are served by community water and sewer, and are accessed via Sewell Drive, Madrone Road and Spring Street.	MND	09/19/2005
2005081105	Conditional Use Permit No. 2005-24 Tulare, City of Tulare--Tulare Commercial development on approximately 33 acres, including an approximately 233,740 sq ft Wal Mart Supercenter, a fuel station, and eight commercial outlots for retail and restaurant use.	NOP	09/19/2005
2005081106	Silvergate Transmission Substation Project - CPCN Application No. 05-03-024 Public Utilities Commission San Diego, Chula Vista--San Diego According to San Diego Gas & Electric (SDG&E), the project is proposed to upgrade aging and obsolete equipment at Main Street Substation, provide increased substation reliability, provide increased bulk power transmission system reliability, provide expansion capability for load growth and potential generation additions, and work with local governments to achieve long-term landuse goals. SDG&E is proposing to replace the aging 139/69kV Main Street Substation with a new 230/69kV substation (Silvergate). The new Silvergate Substation would be located across the street from the existing Main Street Substation on SDG&E owned property and on adjoining property in the Barrio Logan community. In addition, SDG&E is proposing two associated projects: installation of a Special Protection System at transmission substations dispatching power from the South Bay Power Plant and 138 kV line undergrounding and removal of lattice steel bridge structures located within the SDG&E's right-of-way between South Bay Power Plant and the Sweetwater River. 2005032066	Hosselkus Creek Phase II Restoration Project Plumas County Planning Department --Plumas 1600 agreement for a stream channel and meadow restoration project. The design includes three techniques: gully elimination using the "pond and plug" technique, channel maintenance using sod transplants, and channel grade control using rock. A culvert will be removed from the main access road and replaced with a rock low-water crossing.	NOD	
2005052035	City of Marina Parks and Recreation Facilities Master Plan and Related General Plan Amendment Marina, City of Marina--Monterey The project consists of the adoption of an update to the City of Marina Parks and Recreation Facilities Master Plan and related General Plan Amendments.	NOD	
2005062122	Bowman @ SF Cottonwood Creek Tehama County Public Works --Tehama The proposed action replaces the existing bridge with a new 38'10"-wide, 450-foot-long, three-span cast-in-place prestressed concrete box girder supported on single column bents approximately 250 feet upstream of the existing bridge. Approximately 300 feet of rock slope protection will be placed to protect the stream bank.	NOD	
2005071002	Soledad Public Housing and Farm Labor Center Redevelopment Soledad, City of Soledad--Monterey The existing 72 farm worker housing units and community center on Benito Street will be demolished and replaced with 143 new affordable housing units, a 4,500 square foot multipurpose building, which will include the Soledad Housing Authority's new office, a large meeting room (approximately 850 square feet) and kitchen that will be used just by the Soledad Housing Authority, a 3,200 square foot daycare center (which will be used primarily for the residents of both the Farm Labor Center and the public housing facility on Monterey Street), and a 1,500 square foot maintenance building. The Soledad Housing Authority office will have five offices, a small conference room, small kitchen, and bathrooms. In addition to the structures, there will be approximately 418 parking spaces. The housing units will consist of one to five-bedroom town home units ranging in size from 602 square feet to 1,748 square feet. The residential buildings will consist of two stories. Each housing unit will contain washer/dryer hookups and private patios/balconies. The 3,200 square foot daycare center will be located adjacent to the multipurpose building. Playfields, play equipment and barbeque areas will be located throughout the complex.	NOD	
2005089066	Initial Study/Negative Declaration for Amador County Skate Park with Howard Park, City of Lone Lone, City of Lone--Amador The project entails the construction of a public skate park with the City of Lone. Citizens for Amador Skate Park, a local community group, has sponsored the project. The City of Lone has provided the site for the project and has applied for and received grant funds to support the construction of this project. The City will also serve any additional roles as required under the terms of future grants.	NOD

2005088339	Interim Remedial Action (RA) for Soil Pursuant to CERCLA at IRP Site 24 - Entemology Wash Rack, Vandenberg AFB Toxic Substances Control, Department of Lompoc--Santa Barbara This IRA is planned to remove remaining contaminated soil in the former Fuel Island Area (approximately 625 cubic yards), Sump area (approximately 445 cubic yards), and Wash Rack area (approximately 66 cubic yards). Temporary fencing will be used to delineate the boundaries of the work area within Site 24 and to prevent unauthorized access during IRA activities. The fencing will be a minimum of six feet tall, with posts securely anchored. The public and unauthorized personnel will not be allowed entry into Site 24. Soil excavation will be conducted in each area separately.	NOE	
2005088340	Industrial Service Oil Company Incorporated - Modification of Interim Status Document to Expand Hazardous Waste Storage Capacity Toxic Substances Control, Department of Los Angeles, City of--Los Angeles Industrial Service Oil Company Incorporated (ISOCI) is a used oil recycling is a treatment process where used oil, classified as hazardous waste, is treated by physical settling, chemical addition, and heat addition to produce a non-hazardous, reusable oil product. Used oil regulations (Health and Safety Code Section 25250) state that used oil be classified as hazardous waste until it is treated, laboratory analyzed, and certified as "recycled oil". Thus, after treatment, and while awaiting laboratory analysis and certification, treated used oil is still classified as hazardous waste. ISOCI is currently authorized to store 350,000 gallons of used oil/hazardous waste in its on-site storage tanks. ISOCI has exceeded its ability to store used oil/hazardous waste within its authorized storage capacity. In order to expand its storage capacity so that the facility may store used oil after treatment, ISOCI has converted its seven recycled oil product tanks (Tanks 100-700) as additional hazardous waste storage. Each of the seven product tanks has an operating capacity of 67,641 gallons. The new hazardous waste storage capacity of the facility will become 823,487 gallons. This additional capacity is for storage after the contents have been treated and are awaiting laboratory analysis and certification as used oil product. No treatment or other processing activities take place after the used oil is placed in Tanks 100-700.	NOE

2005082089	<p>HFPD#1 56' Lattice Radio Tower to Accommodate Fire and Community Water Humboldt County Community Development Services Eureka--Humboldt</p> <p>The development of a 56' tall triangular lattice radio tower (18" face on three sides). The tower will be shared by Humboldt #1 Fire and Humboldt CSD for their radio/communications needs only. The parcel is 18,975 sf in size and is currently developed with a 24' tall 1/2 million gallon water tank for community water service needs and 117 sf equipment shed. Two trees will be removed, each within 30' of existing or proposed structures. The tower will use existing utilities at the site and not require new sewer or water facilities. According to the plot plan submitted by the fire district, the nearest residence is +/- 100' to the NW of the proposed radio tower. The SP is for an exception to exceed the 35' height limit of the R-1 zone.</p>	Neg	09/20/2005
2005082090	<p>Charlie Hansen - Hansen's Truck Stop. Conversion of <e> 1,500 sf Restaurant/Office to Mini-Mart associated with <e> Gast Station; Demo of +/- 3,400 sf Structure Humboldt County Community Development Services --Humboldt</p> <p>A Coastal Development Permit for the demolition of an approximately 7,000 square foot restaurant and office space to be replaced with an approximately 5,000 square foot structure proposed for the same use. Approximately 13,000 cubic yards of engineered fill will be required in order to bring the new structure to the required one foot above base flood elevation. In the Coastal Zone, this amount of fill requires a CUP. As a part of this project, a new septic system and a new well are proposed. The +/- 7.7 acre parcel is also developed with a card-lock style gas station and scrap metal yard.</p>	Neg	09/20/2005

2001101059	Seaside Resort Seaside, City of Seaside--Monterey The City proposes to enter into an amended and restated ground lease agreement for operation of the Black Horse and Bayonet golf courses, as well as maintenance and repair of the irrigation system. The leasehold area, after the Ground Lease is executed, and separate parcels associated with the Seaside Resort project are subdivided is about 299 acres.	NOD	
2003061065	TM 5267RPL, Log No. 01-09-057; Roberts Residential Subdivision San Diego County Department of Planning and Land Use --San Diego This revised Tentative Map would approve revised access to previously approved residential lots. The proposal would shorten the previously approved on-site private easement road and add another access point from Archie Moore Road. A 275-foot long private easement road called Red Hawk Vista would be accessed from Salt Mine Road. An approximate 250-foot long private road easement ending in a cul-de-sac called Mt. Woodson Heights Road would be accessed from Archie Moore Road. Overall, a reduction of 425 feet of on-site private easement road would occur and overall soil disturbance would be reduced by approximately 24,000 cubic yards of soil. Minor lot line changes are proposed which substantially conform to the previously approved subdivision.	NOD	
2004091048	Rio Bravo Annexation No. 467 GPA / ZC 04-0853 Bakersfield, City of Bakersfield--Kern (1) A request to amend the General Plan from R-EA (Resource Extensive Agriculture) to LR (Low Density Residential) on 600 +/- acres and LMR (Low Medium Density) on 17 +/- acres and a request to amend the Circulation Element of the General Plan to eliminate one unnamed collector street segment extending from Chase Avenue within the project site and reclassify a separate unnamed collector street segment extending from Chase Avenue within the project site and reclassify a separate unnamed collector street extending from Miramonte Drive connecting to the Rio Bravo Country Club to a local street designation; (2) a request for a concurrent zone change from A (Agriculture) to R-1 (One Family Dwelling) and R-1-HD (Limited Multiple Family Dwelling - Hillside Development) on 17 acres; and (3) the project also consists of an annexation into the City of Bakersfield.	NOD	
2005052141	Schneider Coastal Development Permit and Parcel Map Subdivision CDP-04-83 / PMS-04-22 Humboldt County Community Development Services --Humboldt Coastal Development Permit, Special Permit, Minor Subdivision and Determination of Status of a 33,916 sf parcel planned and zoned for single family residential into four parcels ranging in size from 7,940 sf to 9,027 sf, with all parcels to be served by community water and sewer. A special permit is requested for maximum lot depth for two lots due to the constraints of the configuration of the parent parcel. The Coastal Development Permit includes the subdivision, demolition of existing structures, and includes a blanket Coastal Development Permit for the construction of one single family residence on each of the four lots, with each residence to be in the range of 1,000 sf to (not to exceed) 2,700 sf total floor area. The blanket Coastal Development Permit shall be effective for two years following recordation of the parcel map.	NOD

2005061009	09-KER-395 KP 189.6/196.9 (PM 117.8/122.4) Ed Powers Rehabilitation Caltrans #6 Bishop--Inyo Caltrans proposes to rehabilitate a 7.21-km (4.54-mile) portion of U.S. Highway 395 northwest of the city of Bishop in Inyo County. The project would widen the existing shoulders to 2.4 meters (8 feet) in each direction of travel, widen the existing median to 3.6 meters (12 feet), overlay the existing roadbed with asphalt concrete, and construct various safety improvements within the project limits.	NOD	
2005062032	Dias Coastal Development Permit and Conditional Use Permit (CDP-04-93 / CUP-04-33) for a 150-foot Fire Clearance Humboldt County Community Development Services --Humboldt A Coastal Development Permit for a commercial timber operation under a "150 foot Fire Clearance Exception." Approximately 60 trees are proposed to be removed on the 2.5 acre parcel. The trees are mostly second growth redwoods with some firs. The project will remove trees that are posing a hazard to overhead power lines as well as provide sufficient fire clearance from the existing dwellings. Slopes within the harvest area are relatively flat. A Conditional Use Permit is required for commercial timber operations in the Coastal Zone. Slash will either be removed by truck or chipped on-site.	NOD	
2005071039	McBride Property (Gearhart) Annexation San Luis Obispo, City of San Luis Obispo--San Luis Obispo Annex property into the City of San Luis Obispo and amend the General Plan Land Use Element map to reconfigure the boundary between the site's Open Space and Services and Manufacturing designations. With annexation, the property is proposed to be pre-zoned C-S (Service-Commercial) and C/OS (Conservation/Open Space), consistent with the reconfigured land use designations. The application also includes a five-lot tentative parcel map and plans to develop the property for auto sales uses, while preserving 50% of the property in perpetual open space.	NOD	
2005071042	New 30-Inch Potable Water Pipeline - Eucalyptus Avenue to Wildwood Canyon Road Yucaipa Valley Water District Yucaipa--San Bernardino The proposed project consists of the installation of a new, 30-inch diameter potable water pipeline in the City of Yucaipa. The pipeline would start at Eucalyptus Avenue, travel south in Second Street (crossing Wilson Creek), turn east in Acacia Avenue, south in First Street, east in Avenue D, and south at California Street to end at Wildwood Canyon Road. A portion of the pipeline would cross Wilson Creek. The total distance for the pipeline is approximately 2 miles.	NOD	
2005072042	Rodgers Ranch Streambank Restoration Project Corning Union High School District Corning--Tehama The proposed project is the implementation of an Erosion Control Plan (ECP) for a portion of Jewett Creek that runs through the CUHSD Rodgers Ranch. The primary goal of the ECP is to develop stabilization methods for eroding banks to allow vegetation establishment for erosion control at the CUHSD Rodgers Ranch.	NOD

2005089067	IS No. 5172 Balsam Creek Bridge Replacement Project; Agreement 2004-0151-R4 Fresno County --Fresno The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Fresno County, Department of Public Works. The applicant proposes to remove the existing concrete deck bridge and bridge columns, repair the damaged existing concrete filled sandbag at the southwest corner of the bridge, and install a single span, cast-in-place concrete box girder bridge.	NOD	
2005089068	Riddle Minor Residential Subdivision, TPM 20847, Log No. 04-08-031 San Diego County Department of Planning and Land Use --San Diego The proposed project is a minor residential subdivision within the North County Metro Subregional Planning Area. The applicant proposes to divide 5.17 net acres into 4 parcels measuring from 1.01 net acres to 1.44 net acres. A majority of the property was used previously as a nursery. The existing house located near the western property line is proposed to be demolished along with other small out buildings. grading will total 21,000 cubic yards of cut with a maximum cut slope ratio of 2:1 and 20,000 cubic yards of fill with a maximum fill slope ratio of 2:1. The maximum cut height will be 15 feet and the maximum fill height will be 5 feet. The project is subject to the Regional Land Use Policy 1.1 (CUDA) Current Urban Development Area and General Plan Use Designation (3) Residential, which permits 2 dwelling units per acre. The current zone for the property is A70, which requires that a minimum lot size of 1 acre be maintained. The project site is located at 2104 Buena Creek Road in the North County Metro Subregional Planning Area within an unincorporated portion of San Diego County. The entire project will be served by the following agencies/districts: Vista Irrigation District, Buena Sanitation District, Vista Fire Protection District, Vista Unified School District.	NOD	
2005089069	Streambed Alteration Agreement 1600-2005-0317-3 / THP 1-05-020 MEN Forestry and Fire Protection, Department of --Mendocino The applicant proposes four activities which include a culvert installation with rock armored outlet fill slope, a road ditch/Class II channel diversion, a bridge elevation change, and the installation of a 24-inch culvert. All activities are located on Bear Haven Creek in Mendocino County. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0317-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Chris Hayter of Campbell Timberland Management, LLC. CEQA Daily Log

Documents Received during the Period: 08/16/2005 - 08/31/2005

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<u>Documents Received on Monday, August 22, 2005</u>			
2005088427	<p>Highway Improvements Caltrans #2 --Shasta</p> <p>Adding a 215-meter long by 3.6-meter wide auxiliary/merge lane >increasing the 213 meter radius (72 kph) horizontal curve to a 300 meter radius (80 kph) horizontal curve, >increasing stopping sight distance and increasing shoulder widths to current standards, and >conforming this project to the recently completed ramp widening/signalization project that took place slightly to the north of this proposed project. It is highly recommended that a barrier be installed between the southbound on-ramp and Boulder Creek. This barrier can be an earthen berm or MBGR. Behind this barrier and before the top of the bank, planting a mixture of native shrubs and trees will help provide protection and provide partial mitigation for the design effect on Boulder Creek (the design prevents the establishment of riparian vegetation). Removal and trimming of trees along the southbound ramp should be Boulder Creek (the design prevents the establishment of riparian vegetation). Removal and trimming of trees along the southbound ramps should be reduced to the absolute minimum necessary to complete the project.</p>	NOE	
2005088428	<p>Asphalt Concrete Overlay Caltrans #2 --Shasta</p> <p>Caltrans will place an asphalt concrete overlay (75mm) over the full width of the existing roadway, including the shoulders and ramps. Included in the project will be shoulder backing, refilling digouts, restoring existing count stations, elevating guardrails and upgrading guardrail end treatments, raising drainage inlets, and changing opaque road signs to retro-reflective signs. Sign posts will be replaced as needed.</p>	NOE	
2005088429	<p>Turnout Caltrans #2 --Tehama</p> <p>The California Department of Transportation is proposing to construct a 280-foot turnout for eastbound traffic on State Route 36, in Tehama County. Signs will be placed to identify the area and the turnout will be striped per design standards. The project will also include locating a roadside drain that has been covered by past erosion and placing rock slope protection at the outlet to prevent future damage to the culvert. Access to the area will be from the State Route and equipment and materials can be staged on the existing turnout. No additional permanent right of way will be required. Approximately 200 sq. ft. (0.04 acre) of temporary right of way may be required to address treatments at the outlet of the exiting culvert. Construction will not be allowed between April 1 and June 30 to avoid potential impacts to nesting goshawks. Vegetation clearing will be kept to a minimum and no large trees (> 9" dbh) will be removed. Post construction erosion and sediment control measures will be implemented such as reseeding and temporary silt fence and straw bales, if necessary. It is determined that this project has no potential to affect historic properties or threatened and/or endangered species.</p>	NOE	
2005088430	<p>Safety Improvements Old Station Caltrans #2 --Shasta</p> <p>Construct operational improvements to increase safety at the SR 44/SR 89 intersection in Old Station. Extend the EB right turn lane on SR 44 and install intersection lighting. The fatal and injury accident rates are four to six times higher</p>	NOE

	than the statewide average for this type of highway.		
2005088431	Highway Structures Repairs Caltrans #2 --Tehama The California Department of Transportation proposes to perform repairs to highway structures, on State Route 36, east of the town of Platina in Tehama County. Repairs will be made to guard rail systems, traffic delineators and signs damaged in a wildland fire that burned along both sides of the roadway for approximately four miles and ultimately burned over 2800 acres of surrounding countryside. Approximately 800m of damaged metal beam guard railing. 12m of earth retaining system, various roadway signs, markers and post mile paddles will be replaced. Additionally, erosion control work will be necessary to protect drainage systems below the planned repair/replacement work to protect the existing drainage systems and reduce the anticipated erosion and runoff that could result from winter rains over the fire damaged slopes. Portable signs and associated traffic control will be utilized to maintain mobility through the burned section of highway. No permits are necessary for this repair project.	NOE

2005082098	Parcel Map Application No. 2005-21 - Sheree Vegas Stanislaus County Oakdale--Stanislaus To divide an existing 100 acre parcel into 2 parcels, one at 60 acres and one at 40 acres. The property is zoned A-2-40 with a Williamson Act Contract.	CON	09/12/2005
2003072038	Draft Ukiah Valley Area Plan (#GP 20-98) Mendocino County Ukiah--Mendocino The County proposes to adopt the Ukiah Valley Area Plan as an element of the Mendocino County General Plan. The draft plan tentatively approved by the Board of Supervisors includes Open Space and Conservation, Historic and Archaeological Resources, Safety, Airport, Parks and Recreation, Community Facilities and Services, Circulation and Transportation, Community Design and Land Use Elements. Noise and Housing are not included.	EIR	10/26/2005
2005081130	Fox Canyon Neighborhood Park San Diego, City of --San Diego The proposed project consists of the development of an approximately 1.9 park acre passive park, which includes enhancements to the north and south side of Auburn Creek adjacent to the undeveloped portion of Landis Street. The project also proposes the development and realignment of an existing paper street (Ontario Avenue) as well as enhancements to the east side of Auburn Creek adjacent to the existing undeveloped portion of Ontario Avenue. The total project area is 3.34 acres. The proposed project site is bounded by Landis Street and Sterling Court on the north and south and Altadena and Winona Avenue on the east and west, within the City Heights Neighborhood of the Mid-City Communities Planning Area.	MND	09/22/2005
2005082097	Tentative Subdivision Map SD 04-04 Kingston Estates Shasta Lake, City of Shasta Lake--Shasta The proposed project would subdivide 15.14 acres into 10 single-family parcels ranging in size from 10,314 gross square feet to 204,470 gross square feet. The proposed project would connect to the City's sanitary sewer system, water system and electrical system. Access would be via Rouge Road to Altus Street with roadway construction of Altus Street across the property frontage to Poplar Street.	MND	09/22/2005
2005081128	High School #5; Bel Lago Site Moreno Valley Unified School District Moreno Valley--Riverside The proposed project would provide seats for a maximum of 3,000 students in grades 9 through 12. The main structures would include three classroom buildings; a gymnasium and pool; a multi-purpose building with rooms for kitchen, band, choir, drama, theater, arts, and shops; a football/track stadium; and a library. Other school facilities include surface parking lots, student loading zone, turf athletic fields (baseball, softball, and soccer), and hardcourts. All recreational facilities and fields would be lit for nighttime use. Parking - 775 spaces.	NOP	09/22/2005

2002081067	<p>Larissa Cham Major Residential Subdivision; TM 5246RPL2, Log No. 01-14-007 San Diego County Department of Planning and Land Use --San Diego The project proposes a major subdivison of 4.65 net acres into 15 lots for single-family residential development. The lot sizes will range from 10,005 sq.ft. (net) to 11,539 sq.ft. (net). An existing residential duplex on Parcel 7 will be converted to a single-family dwelling and 14 additional dwelling units are proposed.</p>	Neg	09/22/2005
2005081131	<p>Well 26A Disposable Resin Ion Exchange System for Uranium Removal Project Mission Springs Water District Desert Hot Springs--Riverside The proposed project is the operation of the Well 26A Resin Ion Exchange system. The well and resin ion exchange unit have already been installed at the project site. Thus, it is the groundwater extraction, treatment to remove uranium, and delivery of the treated water to the District's potable water distribution system that constitutes the proposed project. Water from Well 26A will be pumped through the onsite resin ion exchange unit where the uranium will bind with the resin, thereby allowing the water leaving the unit to meet the California Department of Health Services Drinking Water standards. The treated water will be pumped into the District's water distribution system for potable water use. When the resin approaches its removal capacity, the resin will be removed and replaced with fresh resin. The contaminated resin will then be properly disposed of.</p>	Neg	09/22/2005

	Facilities Master Plan through the year 2015. The LRDP describes both the scope and nature of development anticipated within this timeframe. The LRDP establishes a maximum amount of net new growth that could occur on the West Valley College campus during this period.		
2005062126	Timber Fall Final Map Subdivision/Conditional Use Permit Humboldt County Community Development Services Eureka--Humboldt A Final Map Subdivision of 6.1 acres into 8 lots. The lots range from approximately 8,200 square feet to 12,200 square feet with Lots 1 and 4 approximately 1.0 and 2.65 acres, respectively. The proposed uses include medical and other health-related facilities, as well as the offices for Planned Parenthood on the resultant Parcel 1. The parcels will be served by community water and sewer. The project proposes an on-site detention facility on Lot 4 to address stormwater runoff. The project is accessed off Walford and Wilson Avenues, and requires off-site improvements to address increased traffic. The project requires a Conditional Use Permit to allow for common parking areas and the establishment of a congregate care facility on Lot 4. The congregate care facility will be 3.5 stories high, approximately 103,000 square feet, and will house 92 residential units. The building will include a theatre, common dining area, spiritual center and home health office for doctor examinations and treatment. The project includes an exception request to the California Department of Forestry and Fire Protection from County Fire Safe Regulations regarding setback for structure defensible space. The property will be logged under a State Timber Harvest Plan and/or harvesting consistent with the Forest Practices Act. The project requires an exception to Solar Access standards.	NOD	
2005089071	Woodlake Recreation Improvements Sacramento County Dept. of Environmental Review Sacramento--Sacramento Sacramento County Regional Parks proposes to develop two small parcels of land on the north bank of the American River in the Woodlake area of the American River Parkway. Facilities to be constructed at the Northgate location include: replacement gravel over an existing access road and parking lot for ten cars, replacement post and cable fencing, an entry sign, an interpretive kiosk and a replacement entry gate. Facilities to be constructed at the Expo Parkway location will include a pre-fabricated vault restroom building, a concrete picnic table, post and cable fencing, an interpretive kiosk and an asphalt path from the bike trail to the restroom.	NOD	
2005088439	Student Services Center State Center Community College District Fresno--Fresno The existing student services building will be modernized. Counter space replacement, flooring replacement, and painting will occur within the two public lobbies. The exterior wall at the lobbies will be extended. The building interior will be repainted in most areas, ceiling replaced as needed, and asbestos removed where ceiling is replaced. Restrooms will be remodeled as necessary to meet current ADA requirements. The rooftop HVAC system will be replaced.	NOE

	implementation would not be contingent upon the progress of any of the others.		
	Some of the proposed projects are currently in the early design stage while others are only conceptual. As discussed in the NOP, options have been identified, which are presently being evaluated for optimum service and cost effectiveness. Detailed information is unavailable for these projects; however, potential locations for wells, treatment plants, pump stations, pipelines, and storage tanks have been identified. Consequently, the analysis for these facilities would be at a programmatic level and be based on various assumptions. Individual projects would therefore be subject to future review per CEQA if their respective impacts exceed those analyzed in the Program EIR.

1992103064	<p>Laguna de Santa Rosa Master Plan Sebastopol, City of SEBASTOPOL--SONOMA</p> <p>The project involves the construction of approximately 2,100 feet of bike path connecting Joe Rodota Trail (County of Sonoma) with Sebastopol Avenue at the Morris Street Traffic signal. Large quantities of fill will be required to raise the grade of the proposed bike path. The trail will be constructed through open space including woodland, grassland and jurisdictional wetland habitat. Bike path construction will not require the removal of any trees over 6 inches in diameter. Some of the property has been impacted by historic industrial use and contains large numbers of invasive species. The trail will include multiple culverts including a box culvert and two bridges to span the adjacent wetland area and Calder Creek a tributary to Laguna de Santa Rosa. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0368-3 pursuant to Section 1602 of the Fish and Game Code.</p>	NOD	
1995073068	<p>Sonoma County Central Disposal Site Improvement Program Sonoma County</p> <p>Addendum to the Sonoma County Central Disposal Site Improvement Program Final EIR to allow for three years of out-hauling of potentially all of the waste (2,500 tons per day) that would have been landfilled at the site, in response to corrective action Waste Discharge Requirements (WDRs) issued in 2004 by the North Coast Regional Water Quality Control Board. The CDS's tipping facility will be converted into a Transfer/Processing Station in order to accommodate the out-hauling of the waste materials until the WDRs permit the landfilling of municipal solid waste once again at the CDS.</p>	NOD	
2003041165	<p>Mission Springs Water District 900 Zone Project Mission Springs Water District Desert Hot Springs--Riverside</p> <p>The proposed project calls for the construction of a new 2000 gpm groundwater production well, two 2.0 MG water storage reservoirs area, a booster pump station, and two distribution pipelines to deliver the water supply from the new reservoirs to customers in the 900 and 1,070-foot service zones. The storage reservoirs would be constructed on a District-owned parcel measuring 670' x 320' (about 5 acres). The District proposes to construct only one of the two storage tanks at this time. The second tank would be constructed at a future date when needed to meet increased water demands.</p>	NOD	
2004042014	<p>Safety Improvements Project on State Route (SR) 20 in Nevada County Caltrans #3 --Nevada</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0231-R2 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Caltrans. Caltrans and the Federal Highway Administration propose to realign and widen State Route 20, in order to improve safety to the public. The project will improve the horizontal and vertical alignment, widen shoulders, and add left turn lanes.</p>	NOD

2005088456	<p>Modification of Stony Gorge Dam Project, Glenn County Regional Water Quality Control Board, Region 5 (Central Valley), Redding --Glenn</p> <p>The purpose of the project is to structurally modify Stony Gorge Dam by correcting inadequate lateral support of the concrete buttresses and to stabilize the foundation below the spillway in Stony Creek. The Stony Gorge Dam will be modified by installing a diaphragm wall and constructing additional struts between the buttresses. The spillway foundation will be stabilized by dewatering the erosion hole that has formed, excavating rock, installing anchor bars and placing a concrete slab on the upstream face of the erosion hole. The hole is approximately 100 to 120 feet wide and extends about 100 feet downstream from the spillway apron. The depth of the hole varies and is about 30 feet at its deepest.</p>	NOE	
2005088551	<p>Corrective Action Complete Determination for FOST #2 (Portions of Parcels II and III) and Change of Facility Boundaries at Former Marine Corps Air Station EI To Toxic Substances Control, Department of Irvine--Orange</p> <p>The Department of Toxic Substances Control (DTSC) is making a determination that corrective action has been completed for approximately 8 acres of property at the former Marine Corps Air Station, EI Toro (MCAS EI Toro) as identified in Final Finding of Suitability to Transfer (FOST #2) (Portions of Parcels II and III) dated August 2005. These parcels were subject to corrective action requirements of the California Hazardous Waste Control Law and the federal Resource Conservation and Recovery Act (RCRA) because they were part of the property of MCAS EI Toro, which is an inactive RCRA hazardous waste facility. MCAS EI Toro had a RCRA permit that expired in 2003. The RCRA corrective action requirements for the FOST parcels have been completed through investigation and cleanup actions overseen by DTSC, the Regional Water Quality Control Board, Santa Ana Region (RWQCB), and the United States Environmental Protection Agency (U.S. EPA) under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA); and by underground/aboveground storage tank investigation and cleanup actions overseen by the RWQCB and Orange County Health Care Agency. This RCRA corrective action complete determination allows the Department of the Navy to transfer identified parcels to new owners without transferring the associated RCRA corrective action liability. There are no additional physical activities associated with this corrective action complete decision by DTSC for the MCAS EI Toro FOST #2 parcels. There are building use restrictions associated with the property transfer due to the presence of lead-based paint and asbestos containing building materials on buildings.</p> <p>The Navy is retaining approximately 987 acres of the facility where closure and corrective action have not been completed. This retained property remains subject to RCRA closure and corrective action requirements. On March 30, 2005, the Department of Navy submitted to DTSC a map showing the new boundaries of the former MCAS EI Toro hazardous waste facility after carving out the FOST parcels. Consistent with its proposed decision that RCRA corrective action has been completed, DTSC is changing the boundaries of the former MCAS EI Toro RCRA hazardous waste facility property.</p>	NOE

2005088552	Planned Development Permit (#2005-106) Calaveras County Planning Department Murphys--Calaveras Issue a Planned Development Permit to allow the construction of a two-story, single family residence on an existing lot, zoned R3-PD (Multi-Family Residential - Planned Development). The proposed design meets or exceeds all applicable Calaveras County development and site preparation standards. The Forest Meadows Owners Association has approved the proposed lot development and design plans. Temporary erosion control measures will be used during construction to prevent siltation into Forest Meadows Golf Course Lake.	NOE

2005081157	SUB2004-00001; WestPac Vesting Tentative Tract Map and Conditional Use Permit San Luis Obispo County --San Luis Obispo Request by Westpac Investments for a Vesting Tentative Tract Map and Conditional Use Permit to subdivide an existing 41.6-acre parcel into 74 parcels for the purpose of sale and/or development (including recreation and open space) to be phased in 3 stages, 66 parcels are proposed for residential development that vary in size from 4,019 square feet; 3 parcels are proposed for mixed use and live/work development of 16,721, 18,757, and 98,726 square feet each; 3 parcels are proposed for commercial development of 99,404, 128,350, and 197,072 square feet each; and 2 parcels are proposed for use as recreation and open space at 39,675 square feet and 8.28 acres each. The proposal also includes the development of 89 commercial and residential buildings totaling 420,052 square feet in size including: 2 commercial retail buildings totaling 30,000 square feet, 5 mixed-use buildings totaling 23,500 square feet of commercial space and 62,000 square feet of residential space, 8 live/work buildings totaling 10,044 square feet of commercial space and 42,138 square feet of residential space, 13 mini-storage buildings totaling 67,600 square feet of storage space and 5,000 square feet of office space, 2 drive-through restaurants totaling 7,200 square feet, a sit-down restaurant at 7,000 square feet, 55 single-family residential buildings totaling 113,188 square feet, and 11 multi-family residential buildings totaling 52,382 square feet. The project will result in the disturbance of the entire parcel. The project includes off-site road improvements to both Main Street and Ramada drive and will create 5 on-site roads. Improvements include: (1) widening the Ramada Drive northbound approach of Ramada Drive at Highway 46 West, eastbound approach at Highway 46, from the project site south to Main Street, and (2) provision for a second turn lane at Main Street. The proposed project is within the Commercial Retail land use category and is located on the east side of Ramada Drive approximately 550 feet north of the intersection with North Main Street and the Highway 101 on-ramp in the community of Templeton. The site is in the Salinas River planning area.	Neg	09/27/2005

2005081160	Under Ocean Floor Seawater Intake and Discharge Project Long Beach, City of --Los Angeles The Under Ocean Floor Seawater Intake and Discharge Demonstration Project, proposed by the Long Beach Water Department (LBWD), is intended to determine the feasibility of utilizing a system of subsurface intake and discharge wells for seawater desalination. If determined feasible, this subsurface intake and discharge system can be an alternative to the widely-proposed method of utilizing a coastal power plant's existing once-through cooling water system for seawater desalination. The LBWD has received grant commitments for the proposed Project from the California Department of Water Resources (DWR) and the United States Bureau of Reclamation (USBR).	EA	09/27/2005
2005082116	BART Seismic Retrofit Project (Earthquake Safety Program) - Berkeley Hills Tunnel to the Montgomery Street Station Bay Area Rapid Transit District Oakland, San Francisco--Alameda, Contra Costa, San Francisco BART is conducting a comprehensive seismic retrofit program of its system in anticipation of a potential future major earthquake. The project area is located in the cities of Oakland and San Francisco, California. There would be no increase in capacity (number of BART trains or ridership) as a result of the seismic retrofit, and substantial changes in BART service are not expected to result during or as a result of the retrofit.	EA	09/28/2005
2004052108	Boundary Creek Subdivision Alameda County --Alameda The project is the rezone of the project site from R-1 to PD, the subdivision of a 8.25 acres into 28 lots ranging in gross size from about 3,200 to 9,500 square feet. The project is adjacent Crow Creek; the site would be accessed via a new bridge crossing the creek. Secondary emergency vehicle access would be provided via the adjacent Veronica Avenue. The subdivision would be served by all necessary infrastructure.	EIR	10/12/2005
2005052108	Westshore Marina Residential Condominium Project Richmond, City of Richmond--Contra Costa Subdivision and construction of up to 269 for-sale residential condominiums in three five-story buildings with sixth-story dormer elements atop a podium structure and parking garage, with approximately 1.12 acres of courtyards and 1.63 acres of landscaped open space. FIN	
2005082115	Young Coastal Development and Conditional Use Permit for the Construction of a Single Family Residence and the Restoration of an Unnamed Creek Humboldt County Community Development Services --Humboldt A Coastal Development and Conditional Use Permit for the restoration of an unnamed stream under "Fish and Wildlife Habitat Management." Also, a part of this permit is the subsequent construction of an approximately 1,520 square foot single family residence, an approximately 600 square foot carport and an approximately 700 square foot covered porch. The project will remedy a violation done by a previous owner in which the unnamed stream was buried and routed through culverts. The applicant proposes to remove the existing culvert and restore the creek back to a natural state. One small culvert will allow a stream crossing to access the residence. Also, a part of this project is the extension of utilities along Spring Street to serve the proposed residence. Water and sewer service will be provided by Humboldt Community Services District. 	Density (SH), which allows 3.8 to 5.5 units per acre. As part of this project the applicant is requesting to rezone the property to Planned Development for single family residential development (P-1).		
2005082117	TPM 2005-0024 Yuba County --Yuba Subdivide one 935.56 acre parcel into 26 lots at approximately 20-plus acres with one 384-acre remainder parcel. No new roads would be constructed though an access easement would be required for ingress/egress to the 384-acre parcel and would not need to be recorded on approximately 9 lots. The rest of the lots would front on Frenchtown Road. The lots would utilize individual septic tanks and individual water wells for each parcel.	Neg	09/27/2005
2005082118	Housing Element Update Sausalito, City of Sausalito--Marin The purpose of the housing element is to achieve an adequate supply of safe, affordable housing for all economic segments of the community as well as people with special housing needs. Despite a number of successes, the supply of affordable housing in Sausalito, Marin and in the Bay Area has become increasingly scarce. This has many impacts on the community as it becomes more difficult to fill vacant jobs; roadways are clogged with workers traveling longer distances; and many young families, longtime residents, and other community members relocate because they can no longer afford to live here. The impacts are especially significant for households in the low and moderate-income categories (earning less than 120 percent of the County median income) and households that have special housing needs, such as the elderly, people with disabilities, and large households.	Neg	09/27/2005
1998102079	Barberi USA 04-02 Gilroy, City of Gilroy--Santa Clara Request to amend the Urban Service Area Boundary for the City of Gilroy to include 27.7 acres of land designated for Neighborhood District development. The property is located at the southwest corner of Monterey Road and Luchessa Avenue and is bounded by the City Limits to the north and east. It is bounded by the existing USA boundary to the north, east, and west.	SBE	10/12/2005
1991102048	Lake Mathews Watershed Riverside County PERRIS--RIVERSIDE The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0138-R6 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Ms. Laura Simonek of the Metropolitan Water District of Southern California. The applicant is proposing to maintain six sites as part of the ongoing Drainage Water Quality Management Plan for the Lake Matthews Watershed. The project will impact maintenance of the project area with ongoing impacts of up to 24.3 acres per year.	NOD

2005051152	<p>Site 23 K-2 South Disposal Area, China Lake Naval Air Weapons Station Toxic Substances Control, Department of --San Bernardino</p> <p>DTSC is proposing to approve a removal action work plan and Action Memorandum that would allow for the excavation and offsite disposal of waste materials buried in a trench at Site 23. Pesticides and explosives have been detected in the soil adjacent to the trench, and in waste material within the trench. Ground water has also been contaminated with pesticides and benzene. The purpose of the removal action is to remove a potential ecological risk should the contaminants migrate from the trench, and to remove a source of groundwater contamination. This is an interim action to remove the source of contamination. The action will include the collection of one-time grab groundwater samples from temporary wells to evaluate ground water contamination. Depending on the results of the groundwater sampling, further evaluation of the site may be conducted at a later date. Approval of the removal action work plan and Action Memorandum by DTSC is pursuant to the requirements of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA) of 1986; the National Oil and Hazardous Substances Pollution Contingency Plan (NCP) in Title 40 of the Code of Federal Regulations (CFR), Part 300; and Chapter 6.8, Division 20, California Health & Safety Code (H&SC).</p>	NOD

	subdivision. The area to be subdivided is undeveloped. The parcels will be served by well water and on-site sewage disposal systems, and accessed off State Highway 36 via private road.		
2005072024	North Auburn Cell Site (PMPB 2004 0404) Placer County Planning Department Auburn--Placer Proposed a cellular communication facility that would include a 65' monopole with the antennae located within the pole and associated ground equipment located within a 20' x 60' lease area.	NOD	
2005072069	Martin Ranch Phase 1 TSM 04-09 237 Single-Family Units Oroville, City of Oroville--Butte Subdivision of a 70.8-acre property into 237 lots for single-family homes. The project site abuts the east side Table Mountain Boulevard. The project includes dedication of a 3.1-acre greenway corridor, a 1.86-acre park adjacent to Table Mountain Boulevard, and several widely-dispersed lots for storm water detention.	NOD	
2005072070	Bolt Antique Tool Museum Oroville, City of Oroville--Butte Renovate an existing 4,300 square foot building to house an antique tool museum. The project will include landscaping, parking lot, and street frontage improvements.	NOD	
2005089076	Streambed Alteration Agreement 1600-2005-0297-3 / THP 1-04-165 SCR Forestry and Fire Protection, Department of --Santa Cruz The applicant proposes modification of two culvert crossing Class II watercourse, removal of a culvert and crossing fill following completion of timber operations, and construction, use, and removal of a temporary spring impoundment for water drafting. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0297-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, David Van Lennep of Redwood Empire Sawmill.	NOD	
2005089077	81st Fringe Area Annexation to Rancho California Water District, Eastern Municipal Water District and the Metropolitan Water District of Southern California Rancho California Water District Murrieta--Riverside The proposed project consists of the concurrent annexation of 8.06 acres to Rancho California Water District, Eastern Municipal Water District, and the Metropolitan Water District of Southern California.	NOD	
2005089078	82nd Fringe Area Annexation to Eastern Municipal Water District and the Metropolitan Water District of Southern California Eastern Municipal Water District Murrieta--Riverside The proposed project consists of the concurrent annexation of 122 acres to EMWD and Metropolitan.	NOD

2005089079	83rd Fringe Area Annexation to Rancho California Water District, Eastern Municipal Water District and the Metropolitan Water District of Southern California Rancho California Water District Murrieta--Riverside The proposed project consists of the concurrent annexation of 6.94 acres to Rancho California Water District, Eastern Municipal Water District, and the Metropolitan Water District of Southern California.	NOD	
2005089080	EIR466 Specific Plan No. 341 Riverside County Transportation & Land Management Agency --Riverside A proposal to master plan the Majestic Feeway Business Center. This includes the land use plan, designation of planning areas, development standards, and design landscaping guidelines associated with the development of Majestic Freeway Business Center. The specific plan includes approximately 279.23 acres of light industrial development and approximately 45.77 acres of existing roads. The specific plan is a proposal to construct and approximately 6.2 million square feet (s.f.) of industrial buildings, ranging in size from 25,000 to 1.2 million s.f., for manufacturing, distribution, and warehouses.	NOD	
2005088465	Castle Peak Culvert Rehab Caltrans #3 Truckee--Nevada Line the existing culverts. During construction, creek flow will be diverted through an 18" pipe placed within the larger culverts. Erosion control at the culvert inlets and outlets will be provided as necessary. No work is planned to the highway mainline. This project proposes to extend the life of the two culverts by rehabilitating the culvert inverts. All work will be within Caltrans right-of-way.	NOE	
2005088466	Agreement No. 2005-0016-R4, GS Farm Sand Removal Fish & Game #4 --Madera Brush and debris removal below an existing head gate, and removal of sand in the San Joaquin River. Total sand removal will be limited to 1,000 cubic yards or less for the life of the Project. Sand will be used for dust control on farm roads. Excavation will be completed in dry conditions, using existing access roads.	NOE	
2005088467	Dudley Ridge Water District/Berrenda Mesa Water District Water Exchange Dudley Ridge Water District --Kern, Kings An exchange program with BNWD that would transfer up to 12,000 acre-feet of DRWD's 2005 SWP Table A water supply from DRWD to KCWA (BMWD) for future return of 66.7% of the water to DRWD. To manage SWP water supplies available to DRWD and its growers, DRWD will utilize transfers in/out of BMWD from/to DRWD. There is no construction, land use change, or modification to existing facilities; no new lands will be brought into production as a result of the requested exchange.	NOE	
2005088468	Miller Park Paving Project San Bernardino County Special Districts Department --San Bernardino Paving of existing dirt parking area at Miller Park and installation of boundary fence at Dana Point Park, Big Bear Valley Recreation and Park District.	NOE

2005088542	City of Folsom Groundwater Resources Study Folsom, City of Folsom--Sacramento An electrical resistivity survey of ten transect lines within the Willow Creek/Humbug Creek was previously conducted to help locate potential drilling locations. Of the ten transects, four transects offered localized areas with the most potential for groundwater. The City of Folsom agreed to pick two sites with the most potential to encounter groundwater, had favorable access, and were located on either end of the study area. The proposed field investigation program will evaluate the geologic and groundwater conditions by installing two deep groundwater monitoring wells and conducting aquifer tests at each location. The two borings will be drilled using air rotary casing hammer (ARCH) drilling techniques. Soil samples will be collected during the drilling from the cyclone. Lithology changes will be noted on the logs during the drilling, as well as, an estimate of the amount of water that the formation is producing at specific depths. The monitoring wells will be constructed inside the borehole using 4-inch diameter, schedule 80 PVC. The depth of the wells and the screen interval will be determined in the field based on the lithology, the depth to static water, and the depth to refusal. The monitoring wells are expected to be completed to about 250 feet bgs with about 100 feet of screen. The wells will be developed by surging, bailing, and pumping at least 24 hours after installation. The new groundwater monitoring wells will be sampled at least 24-hours after development for general minerals and other appropriate water quality constituents. Drill cuttings are not expected to be contaminated and will be spread out in adjacent open areas. Aquifer tests will be conducted in the two new monitoring wells after the wells are properly developed and the groundwater levels have stabilized. The aquifer tests will consist of a constant-rate pumping test in each well. The constant-rate pumping tests will be used to assess the hydraulic conductivity of the aquifer material. Well water produced during drilling and aquifer testing is not expected to be contaminated and will be discharged to nearby open fields, storm drains or ditches. There will be one to two additional vehicles along with the drilling equipment. Field investigations of the boring locations have determined that no significant disturbance to existing environmental resources is expected. Groundwater monitoring will occur on a quarterly basis.	NOE

2000091026	Skytt Mesa Residential Subdivision Project Solvang, City of Solvang--Santa Barbara Development of a 169 unit residential subdivision, requiring a retention basin with an outflow pipe into Adobe Creek, with a headwall and an ungrouted rock apron.	NOD	
2003031112	Desert Cove Golf Course Cathedral City Cathedral City--Riverside Approval of a License Agreement that establishes the terms and conditions by which Desert Cove Golf Resort, LLC (Desert Cove) will be allowed to design, construct, operate and maintain certain improvements associated with the proposed golf course within existing District right of way. Pursuant to CEQA, the City of Cathedral City has assumed the role of Lead Agency and has adopted a Final EIR for the Desert Cove Golf Club.	NOD	
2003082005	Capitola Center Expansion and Renovation Project Capitola, City of Capitola--Santa Cruz This project will restore and protect approximately 2 acres of riparian habitat adjacent to Soquel Creek along 1,000 linear feet of creek frontage from Highway One to the Nob Hill Shopping Center in Capitola, Santa Cruz County. The site will be in a permanent conservation easement, currently held by the City of Capitola. The corridor has been largely undisturbed by development, but is infested with aggressive non-native species including English and Cape ivy, acacia, pampas grass, and arundo. Techniques used for the restoration will include goat grazing, hand labor, and possibly minimal herbicide spray. To eliminate the non-native species, especially the more aggressive Cape ivy and Arundo, a "scorched earth" method will be employed. For a site that is as overgrown as this, experts recommend this technique to insure eradication of the invasive species and successful establishment of a healthy native suite of plants. Larger native trees are not to be removed. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0131-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, Craig French, Managing Director / Redtree Properties, L. P.	NOD	
2003082005	Capitola Center Expansion and Renovation Project Capitola, City of Capitola--Santa Cruz The project involves upgrading an existing storm drain outlet to the left bank of Soquel Creek, installation of a Stormceptor pollution prevention device (silt and grease trap) and a rock energy dissipater. This work in the stream zone project is being completed as a portion of the overall remodeling, renovation, expansion and construction of existing and new commercial buildings in the Capitola Center. The above scope of work will require construction within the riparian corridor and possible removal of riparian vegetation. According to a February 12, 2003 ecological review by Biotic Resources Group, approximately 500 square feet of riparian area may be directly impacted by this work, and riparian trees may need to be limbed to provide construction access. To mitigate the above scope of work, additional landscaping will be established including a large natural riparian restoration area abutting Soquel Creek. Within the approximately 500 square feet impacted area, invasive, and exotic plant species will be removed per the outline in	NOD

	will be required and approximately 19,800 cy of material would be excavated from the site.		
2005072155	Petition to Change the State Water Project Place of Use to Include the Service Area of the Oak Flat Water District Water Resources, Department of Patterson--Stanislaus The Department of Water Resources (DWR) proposes to change its water rights and correct the inadvertant omission of the OFWD service area through a change petition submitted to the SWRCB pursuant to Water Code Section 1700 et. seq. The proposed project will not change the operations of the SWP nor result in any changes in annual diversions through the SWP Banks Pumping Plant.	FIN	
2005081165	Laguna Canyon Road / Interstate 405 Overcrossing Widening Project Irvine, City of Irvine--Orange The proposed project includes widening the existing Laguna Canyon Road / I-405 overcrossing and completing the widening of the bridge approaches. This widening would add a median and two lanes of traffic west of the existing bridge. The widened bridge would have a curb-to-curb dimension of 24.4 meters (m) (80 feet [ft.]), which provides for two lanes of traffic in each direction, a bicycle lane and sidewalk on each side, and a 4.3 m (14 ft.) painted median. The overall bridge width would increase from 11.3 to 28.0 m (37 to 92 ft.) including 1.5 m (0.46 ft.) sidewalks. The project limits are from Limestone in the south to Pasteur in the north; these limits include the restriping of the existing roadway, which is necessary to the new widened facility to the existing roadway. The sidewalk and curb and gutter improvements would be limited to approximately 40 m (131 ft.) north of the bridge and approximately 10 m (33 ft.) south of the bridge. In order to provide safe facilities for pedestrians and bicyclists, chain-link fencing and overhead lighting would be added to both sides of the bridge. Additional elements of work would include seismic retrofit of the existing bridge and the relocation of Caltrans traffic surveillance cameras, currently mounted on the west side of the bridge, as well as the traffic detection loops located below the bridge in the I-405 traffic lanes to University Drive / Jeffrey Road bridge.	MND	09/29/2005
2005082128	DeMartini RV Dealership Grass Valley, City of Grass Valley--Nevada Development Review (04DRC-26), Annexation (05PLN-23), Prezoning (05PLN-24), and General Plan (05PLN-25) Application for Tim DeMartini to construct a 22,000 square foot Recreational Vehicle dealership, Annexation into the City of Grass Valley, General Plan Amendment from Business Park to Commercial land use designation, and Prezoning to C-3 (Heavy Commercial) zoning district on 13.8 acres.	MND	09/29/2005
2005082130	Willow Pass Business Park Contra Costa County Community Development Concord, Unincorporated--Contra Costa The proposed project is a 325,000 to 375,000 square foot mixed-use business park including land uses such as light industrial, warehouse commercial, office, restaurant and retail spaces. The proposed development includes a gas station, convenience store and drive-thru fast-food building. The proposed project entails construction of 10 to 14 buildings, two of which could be up to 30 feet tall, seven of which could be up to 50 feet tall and five of which could be up to 68 feet tall. The	MND	09/29/2005

	existing six parcels would be subdivided into 14 lots and would require final grading permits. Approximately 37 acres contained in the six parcels would not be developed, as these are Restricted Development Areas with recorded conservation easements. Within the 29 acres that would be developed for the Willow Pass Business Park, the building areas would have 25 percent lot coverage. The proposed project would include a private water supply system and a storm water detention system.		
2005082133	Lake Wildwood Wastewater Treatment Plant Improvements 2006 Nevada County --Nevada Nevada County Sanitation District No. 1 is proposing minor improvements to the Lake Wildwood Wastewater Treatment Plant to comply with NPDES permit requirements. Improvements include: a new equilization basin, headworks building, new administrative building, lining of sludge storage basin, and minor road paving. The initial study also evaluates potential future treatment processes (denitrification, microfiltration, and ultraviolet light disinfection system).	MND	09/29/2005
1996102097	Central Subway to Chinatown (Phase 2 of Third Street Light Rail Project) San Francisco Planning Department San Francisco--San Francisco The Central Subway to Chinatown is Phase 2 of the Third Street Light Rail Project. It would extend the rail line currently under construction, north from the current terminus at Fourth and King Streets, primarily via a subway, to a new terminus in Chinatown on Stockton between Washington and Jackson Streets. Three or four stations are planned depending on alternative.	NOP	09/29/2005
2005082122	Upper North Fork Feather River Hydroelectric Project Water Quality Certification State Water Resources Control Board --Plumas The proposed project can be defined as the operation of the UNFFR Project as proposed in PG&E's application for License of the UNFFR Project (October 2002) plus the protection, mitigation, and enhancement measures for the UNFFR Project as described in the partial Settlement Agreement (April 2004). The following section provides a brief overview of the UNFFR Project features, the operational configuration, and the changes to the UNFFR Project proposed in the partial Settlement Agreement.	NOP	09/29/2005
2005082124	Dublin High School Master Plan Dublin Unified School District Dublin--Alameda Dublin High School Master Plan which calls for the modernization of approximately 68,000 square feet of existing facilities, demolition of about 83,000 square feet of existing facilities, and construction of approximately 210,000 square feet of new facilities. Development would occur in four phases beginning in 2006 with completion in 2013. Parking facilities would be expanded and landscaping would be enhanced.	NOP	09/29/2005
2005082131	Stream Maintenance and Flood Protection Services Program Sonoma County Water Agency --Sonoma The project consists of three components that together would meet the objectives of the project: Routine Maintenance Activities would consist of modifications to the Agency's routine stream maintenance and flood protection activities to protect threatened	NOP	10/13/2005

	species in accordance with the Section 7 Consultation and to enhance riparian habitat. The modifications are anticipated to include transitioning the Agency's engineered channels into waterways that not only provide adequate flood protection, but also provide good riparian habitat and water quality. Flood Control Design Criteria would consist of revising the Agency's Flood Control Design Criteria to incorporate modifications resulting from the Section 7 Consultation and to reflect updated flood control design methodologies. Recreational Access would include an evaluation of the Agency's flood control channels to identify those most suitable for public recreational use. This could include opening roadways currently used for maintenance access to public pedestrian use and bicycle trails by replacing gates with bollards; installing signage; and resurfacing access roads with either gravel or asphalt. Adapting flood control channels for recreational access would encourage pedestrian circulation and provide public access to the stream corridor along with linkage to other transportation networks.		
2005081166	Alcatraz Creek Erosion Control Project Santa Barbara County Goleta--Santa Barbara Mariposa Environmental, on behalf of PXP/Arguello Inc., request a Coastal Development Permit to construct the Alcatraz Creek Erosion Control Project to contain future creek flow and direct overflow away from the forebay structure. The project will consist of refilling the erosion channel with locally derived soil and compacting the fill to 90%, pouring a concrete swale, placing gabions between the current upstream creek bed level and the creek outfall, and installing a 50 foot extension to the existing rip rap revetment to protect the creek mouth. The project will be designed with a vehicle crossing to accommodate heavy equipment and allow vehicle access to the beach.	Neg	09/29/2005
2005081167	18 MGD Regional Wastewater Treatment Facility Expansion Project Victor Valley Wastewater Reclamation Authority Victorville--San Bernardino The proposed project would increase the sewage treatment capacity of the Victor Valley Wastewater Reclamation Authority's regional wastewater treatment plant to 18.0 MGD.	Neg	09/29/2005
2005082129	ZC-2005-13 and SPR-2005-09 (Multi-Family Residential and Day Care Center) Hesperia, City of Hesperia--San Bernardino A Zone Change (ZC-2005-13) from A-1 to Multiple-family Residence (R-3) on 4.4 gross acres located on the east side of Third Avenue, approximately 300 feet south of Sultana Street and from C-2 to R-3 on 11.9 gross acres located on the southwest corner of Hesperia Road and Sultana Street and a Site Plan Review (SPR-2005-09) to construct a 10,050 square foot day care center and a 34-unit single-story apartment complex on 4.4 gross acres located on the east side of Third Avenue, approximately 300 feet south of Sultana Street. 2000022106	Amador Transmission Project Amador Water Agency Jackson--Amador The project will replace the existing 23.2 mile canal system with a 30 to 36 inch diameter pipe, primarily buried underground, which is approximately 9 miles long. The project would also place a varied size pipe in the canal (6-12 inch diameter) to continue service to the existing customers.	NOD	
2002121106	State Street Storm Drain Project San Bernardino, City of San Bernardino--San Bernardino The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 6-2003-143 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Darren Kettle, of the San Bernardino Associated Governments (SANBAG) / City of San Bernardino. The applicant proposes the construction of a subsurface drain system to intercept surface runoff generated from a tributary area bounded by Cajon Boulevard and Devil Creek to the north, Baseline Street to the south, Lytle Creek to the west, and California Street and State Street to the east. The project will impact 0.07 acres of Departmental jurisdictional waters, and 2.61 acres of alluvial fan sage scrub habitat.	NOD	
2003112096	Humboldt Transit Authority, Victorian House Relocation Humboldt Transit Authority Eureka--Humboldt Humboldt Transit Authority (HTA) is requesting a Coastal Development Permit, Conditional Use Permit and Street Vacation to allow the construction of a bus storage station. The new facility will be constructed to house HTA buses. The proposed project will also include the development of off-street bus and employee parking, ingress/egress security gates, safety and security lighting, and landscaping. In addition, the existing warehouse/storage building located on Parcel 002-124-008 will be used by HTA for equipment storage and will also house an employee break room. The project will require the removal of two historic structures. Further, the project will require vacation of the alley right-of-way over the alley running East and West through subject block (the City will retain a utility easement over the full width of the alley). 2005088567	Rubber Concrete Overlay Caltrans #2 --Siskiyou The California Department of Transportation and the Federal Highway Administration will place an asphalt-rubber concrete overlay (45mm) over the full width of the existing roadway, including paved shoulders. Other construction activities included in this project will be repairing upgrading the end treatments, adjusting drainage inlets to match new pavement height, and backing shoulders.	NOE	
2005088568	Acceptance of Donation of Land for Proposed Redding Veterans Home General Services, Department of Redding--Shasta The Department of General Services, Real Estate Services Division proposes to accept the donation of an approximately 25-acre site on the north side of Knighton Road just east of Churn Creek in Redding, California. The land is being donated to the state by the City of Redding for a future state veterans' home. The land consists of vacant oak woodland designated under the area specific plan for public facilities consistent with a state veterans' home operation. The site is well-served by municipal utilities, access, and it contains no sensitive habitat. Planning and construction of a state veterans' home would be subject to a future environmental review process. This action only consists of a change in title between two public agencies. The land will be held in open space and/or passive uses until the state proceeds with siting of a new veterans' home.	NOE	
2005088569	Transfer of coverage to El Dorado County APN 33-425-04 (Sandbox) Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 394 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE
